### Core Product Families

- Spiral Freezer Belt: for spiral freezing systems where drum fit, chain pitch, and running stability must be reviewed.
- Self-Stacking Belt: for systems where stacking behavior, upper/lower engagement, and plate geometry must be confirmed.
- Eye Link Belt: for heavy-duty conveying, washing, cooling, and open-structure product support.
- Flat Wire / Honeycomb Belt: for open area, airflow, drainage, and flat product support.
- Side Driven Belt, Chain Driven Belt, Trapezoidal Mesh Belt, and Drive Sprockets are selected after drive method review.

### What to Send Before Catalog Recommendation

- Application: freezing, washing, baking, cooling, drying, or industrial conveying.
- Known belt type, old belt photos, drawing, target width, pitch, and material grade if available.
- Operating temperature, product load, cleaning method, line speed, running direction, and delivery timing.

Privacy note: drawings, old belt photos, project dimensions, shipment photos, and buyer records are used only for technical review and quotation preparation. Public materials do not include customer names, order numbers, shipping marks, private labels, or faces.
