Five questions a purchasing team asks a new supplier

Every answer is a document, a photo or a check you can make yourself.

Your question	What we show you	Pages
Who exactly is the company?	Legal name, address, history, contacts and trade fairs.	4
Is the certificate real and current?	The ISO 9001:2015 certificate itself, with its number and dates.	5
Is there a factory behind the e-mail?	Site and workshop photos, in-house and sourced steps, video tour.	6–8
What documents will I get with an order?	Documents at each stage, material and inspection records.	9–12
How do I pay and protect my drawing safely?	Payment terms, account check and confidentiality.	13

How you can check: send us your supplier qualification form; we fill it in with these facts.

Who you are buying from

Your concern: a trading name with no company behind it.

Spiral forming (faces blurred)

Robot welding line

How you can check: ask us to show any of these places on a live video tour.

What we make in-house — and what we source

Your concern: not knowing who really makes each part of your order.

Made in our factory Stainless wire drawing, round-bar drawing, forming, assembly, welding (robot welding on spiral freezer belts), straightening, in-process and final inspection.

Sourced, then checked by us Some chains, sprockets, pickling, electropolishing, heat treatment, wooden cases. Checked against the project specification.

Final inspection in our workshop

> **How you can check:** ask which steps of your order are made in-house.

Book a live video tour

Your concern: you cannot travel to China to audit a supplier.

How Tell us what you want to see — the workshop, a machine, your own order in production — and book a time. We reply as soon as we see your message, within 8 working hours (our usual practice, not a contractual deadline).

How you can check: send a message on WhatsApp +86 134 5177 3742 to book a tour.

Documents at each stage of your order

Your concern: "inspected" or "approved" with nothing on paper.

Stage	What you receive
Quotation	Written quotation: specification, trade term, validity (usually 15 days)
Drawing and PI	Our drawing for your approval; PI with payment terms and lead time
Trial / first article	Photos and video with measured values, or the physical sample
Material	Steel mill documents for the material in your order
Before shipment	Final-inspection and, where it applies, drum-test photos and video
Shipment	Packing photos, packing list and invoice; certificate of origin available

How you can check: tell us at the enquiry which documents and formats your team needs.

Material documents and tests for every batch

Your concern: a grade on paper that is not the grade in the belt.

Each batch Steel mill documents, material verification, spectral analysis and hardness testing. Tensile testing is also used.

Spectral analysis

Tensile tester

Hardness tester

> **How you can check:** ask for the mill documents of the material used in your order.

Measured values you can compare with your drawing

Your concern: an inspection report without numbers.

Example First article and final inspection are recorded as photos of the measurement, so you can read the value and compare it with your drawing.

Pitch on the first article

Width at final inspection

> **How you can check:** see Quality Control and Final Inspection for drawing-versus-measured tables from real orders.

Packing list in every case, photos before shipment

Your concern: missing parts or papers at the port.

Every shipment A packing list in English inside each case; packing photos before shipment; invoice and, when needed, certificate of origin.

Packing list in the case (details blurred)

Neutral shipping mark (numbers blurred)

Cases loaded (labels blurred)

How you can check: send your consignee and document requirements with the order.

Paying safely and protecting your drawing

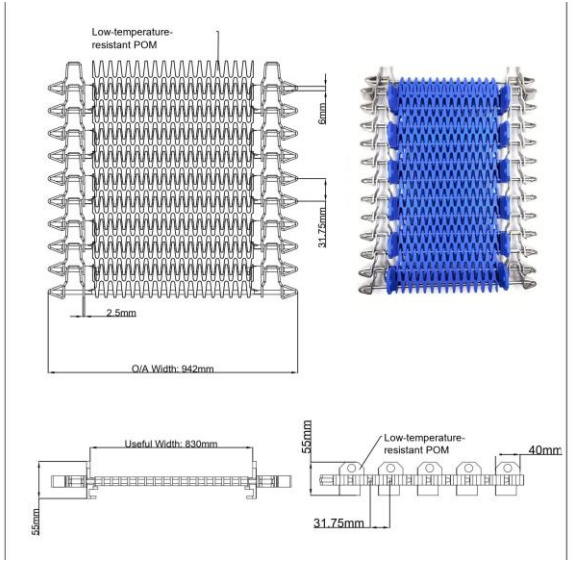

Your concern: payment fraud, or your design shown to others.

Terms T/T is common. Customized orders usually need a 30% deposit; terms are written on the PI.

Before you pay If any payment detail differs from the PI, call or WhatsApp +86 134 5177 3742 first.

Shipment Every belt passes the 100% final inspection before it is shipped.

Your drawing Kept confidential and used only for your orders. For customized projects we can sign an NDA.

Your approved drawing controls production

How you can check: the legal entity on the PI must be Ningjin Yiyi Mesh Belt Co., Ltd.
